Versatile Full-Stack Web Developer with over 6 years of experience building secure, scalable web applications using PHP, Laravel, Vue.js, and modern relational database architectures. Demonstrated track record in API integration, performance optimization, and custom Blade directive development. Passionate about writing clean, maintainable code and delivering robust user experiences.

PROFESSIONAL EXPERIENCE

Senior Laravel Developer — Apex Web Solutions

2023 – Present | London, UK

- Architected and delivered customized Laravel applications and RESTful APIs supporting 200,000+ monthly active users.
- Implemented custom Blade directives, Eloquent ORM performance tuning, and Redis caching strategies, reducing page load times by 35%.
- Led migration from legacy PHP codebases to modern Laravel 10/11 standards with automated test coverage using PHPUnit and Pest.
- Collaborated with UI/UX designers to integrate reactive frontend components using Vue.js and Tailwind CSS.

Full-Stack Developer — Vanguard Digital Agency

2020 – 2023 | Manchester, UK

- Developed custom web portals, e-commerce stores, and backend CMS tools using PHP, Laravel, MySQL, and JavaScript.
- Engineered third-party integrations for payment gateways (Stripe, PayPal) and CRM platforms via RESTful web services.
- Managed CI/CD pipelines via GitHub Actions and deployed applications across AWS (EC2, S3, RDS) environments.

Junior Web Developer — PixelForge Studio

2018 – 2020 | Leeds, UK

- Maintained and enhanced custom client websites using modern HTML5, CSS3, PHP, and JavaScript.
- Refactored legacy SQL queries to optimize database responsiveness across high-volume transaction pages.
